Bright Technologies
A Division of Sebright Products, Inc.
127 North Water Street
Hopkins, Michigan 49328

Attention: Mr. Stuart Sebright

Dear Mr. Sebright,

I am writing in reference to the rental of your belt filter press system last year, and the 0.6 meter skid mounted belt filter press that we utilized earlier this year. These units have worked extremely well for our dewatering needs.

When we experience issues with our dewatering centrifuges or want to perform periodic maintenance on the units, our preferred solution is to contact Bright Technologies for assistance with temporary dewatering. We were pleased to find a company that could respond quickly, and provide us with a high level of service.

The belt filter press equipment serves our needs well, and we are impressed with the quality, ease of operation, and service we received. The staff is courteous and helps us get the belt press dewatering sludge quickly and efficiently.

I would recommend your company and equipment to anyone needing quality dewatering equipment backed by a knowledgeable staff.

Sincerely,

Lee Hays
